

Take the first steps to becoming a changemaker with the **Team Academy for Social Change Futuremaker** programme from Creative Rebel CIC.

The Futuremaker programme introduces learners to the principles of community changemaking and social action through enterprise education. This intensive, 5-day programme aligns with the **SFEDI Level 1 Award in Enterprising Skills and Employability**, equipping students with essential skills such as teamwork, creative thinking, problem-solving, and self-assessment. Delivered using the innovative **Team Academy methodology**, learners gain real-world experience through hands-on projects and challenges.

Programme Overview

The Futuremakers programme is designed to blend classroom learning with practical application. Over 2.5 days, participants engage in dynamic, hands-on classroom sessions to build their skills in enterprise, teamwork, creativity, problem-solving, and self-improvement. This is followed by 2.5 days dedicated to a **live business challenge** provided by a local business or organisation. Participants work collaboratively to apply their learning in real-time, tackling the challenge and developing innovative solutions. This approach transforms theoretical knowledge into actionable outcomes, giving learners invaluable experience in addressing real-world business and community needs.

Programme Features

- **Practical, Experiential Learning:** Students apply their knowledge directly to real-world community and business challenges, fostering deeper understanding and retention.
- **Team-Based Approach:** Learners collaborate in groups, mirroring real workplace environments and building essential interpersonal skills.
- **Reflective Practice:** Students maintain reflective journals to analyse their progress and identify areas for growth.
- **SFEDI Accreditation:** On completion, students achieve the SFEDI Level 1 Award in Enterprising Skills and Employability, boosting their credentials and future opportunities.

Programme Delivery Overview

Enterprise Skills

Delivery: Day 1 Full day.

Learners explore the qualities of successful entrepreneurs, reflect on their own strengths, and identify ways to develop enterprising behaviours.

Skills Developed: Self-awareness, entrepreneurial thinking, goal setting.

Working as Part of a Group

Delivery: Day 2 Morning.

Through collaborative activities, students learn how to contribute effectively to team efforts, establish ground rules, and evaluate group progress.

Skills Developed: Teamwork, communication, feedback.

Creative Thinking

Delivery: Day 2 Afternoon

This module encourages learners to think outside the box, using tools to generate creative ideas and applying them appropriately in workplace scenarios.

Skills Developed: Creativity, ideation, adaptability.

Problem Solving at Work

Delivery: Day 3 Morning

Learners identify potential workplace challenges and practice methods to develop and evaluate effective solutions.

Skills Developed: Analytical thinking, decision-making, resourcefulness.

Business Challenge Brief & Client Meeting

Delivery: Day 3 Afternoon

Participants apply their skills and knowledge to a real-world challenge provided by a local business or organisation, working collaboratively to develop innovative, actionable solutions. This module bridges classroom learning with practical application, encouraging participants to think creatively, work effectively as a team, and deliver tangible outcomes that meet the needs of the business.

Skills Developed: Collaboration, problem-solving, creativity, project management, adaptability, and real-world application of learning.

Business Challenge

Delivery: Day 4 Full day

Working with a TASC Team coach participants begin to break down the business challenge and explore solutions to address the client's challenge.

Skills Developed: Collaboration, problem-solving, creativity, project management, adaptability, and real-world application of learning.

Business Challenge Results Presentation

Delivery: Day 5 Morning

The team deliver their solution presentation to the client and obtain feedback on their solutions.

Skills Developed: Collaboration, problem-solving, creativity, project management, adaptability, and real-world application of learning.

How to Keep Improving

Delivery: Day 5 Afternoon

Students reflect on their learning and development needs, recognising how personal improvement connects to business success and prepares them for future opportunities.

Skills Developed: Self-assessment, growth mindset, career readiness.
